"I approach my workshops as a coach more than a tutor believing that the most effective learning comes from drawing out the best from participants' personality, previous knowledge and experience. Workshop exercises are practical and relevant to delivering engaging high quality tours."

"This workshop is probably the most interesting I've been to for years!"

"Well worth it... I have only been a guide for a few weeks so this has been very helpful to me"

"Very well run workshop! Uncommon to find a presenter that can hold a group's attention throughout the day as Steve did. I thought it was very good."
